# Password Generator

- Password Generator

Resources

- Javascript tutorial
- MDN javascript tutorial
- Javascript Video Tutorial

Task

- ☐ Create a new folder under javascript/001.passwordGenerator
- ☐ Create a new branch based on main or upstream/main **Don't forget to sync and fetch origin**
- ☐ Use Html and css/bootstrap or tailwind css **(similar to bootstrap but more powerful and lightweight)** to create the UI
- ☐ Use javascript to manipulate to DOM elements of the UI

- [ ] Commit and create pull request
